

FERRARI
MASERATI
OF SEATTLE

GranSport Spyder

Overview

The enormous success enjoyed by the GranSport convinced Maserati to dazzle its sportier and more passionate clients with a cabrio version. This new model is altogether more aggressive and the driving experience is enhanced by the drop-top hood. From a technical point of view, the car's engine is an evolution of the power unit fitted to the GranSport. The bodywork features aerodynamic and stylistic touches that differentiate it from the traditional Spyder.

Performance

Top speed 285 km/h
0-60 mph 4.75 s

Engine

Engine 90° V8
Bore & stroke 92x79.8 mm
